The UniTRENTO SHORT GUIDE
for PhD students - Science & Technology

Procedures, services, benefits and other info
A.Y. 2017-2018
All information is updated September 2017; it is advisable to check further news on the website.

"MUSTS": 7 key points

1. Certificates

Any request for certificates (enrolment, assignment of UniTRENTO scholarship, etc.) must be submitted by email to the relevant Doctorate Office (Science and Technology: phd.office-st@unitn.it) well in advance (minimum 3 working days), specifying for what purpose, the matriculation number, the number of certificates and if it/they is/are needed in Italian or English or both. For certificates relating to Department scholarships or Assegni di ricerca you must refer to Servizi amministrativo-contabili (Administration Management Office).

ASK TO: Doctorate Office

2. Communication/Notices from Doctorate Office

E-mail is the primary mode of communication between the Doctorate Office and the PhD students, and all deadlines, and doctorate-related news and events will be communicated via the University accounts. It is imperative that doctoral students check their UniTRENTO e-mail box on a regular basis. It is nevertheless mandatory to keep the "Phd Office – Science and Technology" updated on any changes to the e-mail private address. Exceptions based on not knowing regulations or deadlines because of not reading the e-mails are not accepted. Students should also regularly check the web site where updated information and deadlines are available: http://www.unitn.it/en/atteno/1895/phd-schools-and-programmes

3. Emergency procedures

Every user of the offices and laboratories of the University shall read and understand the information placed next to the maps of the emergency plans available at every floor on any UniTRENTO building. Users should acknowledge in particular:

1. escape routes and position of the emergency exits;
2. location of the external meeting points;
3. location of the alarm keys;
4. evacuation signals;
5. emergency phone number.

The University of Trento appoints persons who are in charge of the emergency management (evacuation and rescue procedures) and are deployed at the Departments/Centres. In case of emergency you can recognize them by the yellow vest they wear.

Details and info: http://www.unitn.it/en/servizi/1679/emergency-management

INTERNAL UniTRENTO CONTACTS: http://www.unitn.it/en/servizi/51077/addetti-gestione-emergenze

EMERGENCY PHONE: 112 (Police, Fire Brigade, Medical emergency)

4. IPR – Intellectual Property Rights

This is a very sensitive issue and PhD students must be aware that some external funded scholarships (i.e FBK, Telecom etc.) may be subject to specific limitations.

ASK TO: Doctorate Office and Supervisor/s
**5. Matriculation number**

It is the number assigned to every student after enrolment at University. Students are advised to memorize their own matriculation number as it is needed for every request to be sent to the Doctorate Office.

**ASK TO**: Doctorate Office

**6. Residence/Domicile**

**Residence** (Italian “Residenza”): the address, in Italy or abroad, where a student has his/her permanent home or principal establishment and pays taxes; every person is compelled to have **one and only one residence** at a time.

**Domicile** (Italian “Domicilio”): the address of temporary stay.

**N.B.**: For foreign students, the request to the Municipality of Trento (or other Italian municipalities) for registration in the “Anagrafe dei residenti” demonstrates the change of residenza to Italy. It should be noted that the request for change of residence does not necessarily imply the issue of the identity card, nevertheless the belonging of an Italian Identity card demonstrates the change of residenza.

It is **mandatory** that PhD students communicate to the Doctorate Office the change of their official residence **immediately** after they have modified it. Failure to notify the change of residence may have serious consequences even if it was not-deliberate.

**ASK TO**: Doctorate Office

**7. Safety at work**

The University of Trento adopts all necessary and adequate measures so that prevention and security increasingly play a systematic, integrative role in the general organization of the University. They are a fundamental factor at all organizational levels and in all activities.

Before starting any research activity it is mandatory to read the specific regulations and respect any instructions given by the person in charge of the work (Head of Department, Head of laboratory, etc.). The improper or unauthorized use of work equipment, chemicals and dangerous substances, means of transport or safety devices are the sole responsibility of the performer.

**Details and info at:**

**Staying abroad= 50% UniTRENTO scholarship increase**

Doctoral students are entitled to get a 50% increase of their UniTRENTO scholarship when staying abroad for reasons related to their doctoral research activities and studies.

The increase of the scholarship can be allocated to students with scholarship till the end of their third year. Doctoral students are not entitled to get the increase of the scholarship for the research period spent abroad after the end of the third year or in the period before sustaining the final examination.

Before leaving doctoral students have to send or bring the following documentation to the PhD Office:
- the form to apply for the increase of the scholarship;
- for research periods not exceeding 6 months: the PhD Director’s authorization
- for research periods lasting more than 6 months: copy of the PhD Programme Committee’s resolution.
N.B. The increase of the fellowship is due only for periods spent abroad lasting a minimum of 1 month (with no interruption) and only for research activity; educational activities carried out abroad can only benefit from the mobility reimbursement. In any case, usually the Directors of the PhD Programmes authorize to spend a period abroad only if the supervisor/s has/have already approved the request. The increase is not due for other kind of financial support, such as scholarships paid by the Department, Opera Universitaria, other external bodies (national or foreign, except for those advertised in the admission call), Research fellowships (Assegni di ricerca) etc.

At the end of the period abroad, once back at the University of Trento, doctoral students have to provide the PhD Office – Scientific Area with:

- a certificate showing the date of start and the date of conclusion of the research activity at the partner institution, issued by the foreign Institution (hard copy with original signature/s and stamp is required), as the scholarship’s increase is daily calculated. The certificate’s date must be subsequent to the final date of the period spent abroad.

Normally the grant’s increase is paid at the end of the period spent abroad.

For periods lasting 3 months or more, the University will pay the 60% of the whole scholarship increase in advance. In order to receive the advance payment within the leaving date specified in the form, the request must be submitted **within 2 months before the departure**. If the request is submitted later or just before the leaving date, the University cannot guarantee that the advance will be paid before the beginning of the period abroad. The remaining part (40%) will be paid at the end of the period, after submission of the certificate stating the duration of the period abroad.

**Opera’s scholarships**

N.B. The reimbursement form must be completed and sent as soon as possible, best if immediately after the return.

**Registrations to conferences, workshops, etc.:** if you ask the University to pay for any registration, a special form is to be filled BEFORE registering to conferences, seminars and so on, in order to allow our *Servizio amministrativo-contabile* to pay the fees in due time. Should students have no time to ask the registration through the Administrative office, in order to get the full refund of the amount they will have to ask to the secretariat of the conference the issue of an invoice (in the invoice it must be specified both the name of the University of Trento and the name of the participant). 2. Students enrolled in the Doctoral Programme must undertake to attend the courses, seminars, lessons and teaching units, to carry out research and study activities on a full-time basis in the structures designated for these purposes and to submit a report on the research done to the Doctoral Programme Committee at the end of each year of study.
3. Students are expected to behave accordingly to the Code of Ethics of the University and to the Student Honour Code. In addition to what is regulated in these Regulations, specific rights and duties of PhD students can be found in the Internal Regulations of each Doctoral Programme as laid down in art. 8 paragraph 3 of these Regulations.
4. The Doctoral Programme Committee may decide to exclude PhD students from the Doctoral Programme with the resulting forfeiture of the study fellowship in the following cases:
   a) insufficient results in the assessments during the year;
   b) negative opinion given by the Doctoral Programme Committee regarding admission to the successive year of study; in this case, the Doctoral Programme Committee will verify achievement of the results required for the current year as well as the assiduousness and commitment demonstrated by the student in the research work;
   c) the student has accepted employment contracts without the prior authorization of the Doctoral Programme Committee;
   d) truancies or prolonged unavailability.
5. The Doctoral Programme Committee can also decide the exclusion according to specific provisions expressed in the Regulations of each Doctoral Programme.
6. PhD students who do not respect deadlines for enrolling in the following year or in the final examination by the deadlines, incur in the "forfeiture of office", resulting in the closure of the career and loss of the PhD student status.
7. The PhD student has the right to obtain maternity/paternity leave, leave for military service or for serious and substantiated illness or to attend the traineeship in order to obtain the qualification to teach in the Italian schools.
9. Suspension due to severe and documented personal or family reasons must be expressly authorized by the Doctoral Programme Committee upon request of the PhD student.
10. At the end of the suspension period, the PhD student will resume attendance of the Programme by submitting a declaration signed by the Director of the Programme. The administrative deadlines and the payment of the scholarship, if the student is scholarship-assisted, will be postponed for a period equivalent to the absence. The Doctoral Programme Committee will approve the modalities to complete the training activities, provided that under no circumstances can the normal duration of the Programme be shortened.
11. For suspensions lasting more than thirty days or in case of exclusion from the Doctoral Programme, payment of the scholarship is stopped.

Students must carefully read the University Regulations for Doctoral Programmes, the Internal Regulations of the Doctoral Programme they are enrolled in, the University Code of Ethics and the Student Honour Code. Plagiarism is considered a serious academic offence and the consequences may be severe.

The relationships among students and among students, professors and administrative staff should be based on politeness and mutual respect, taking into account the dignity and needs of people with whom you interact. Discrimination of individuals or groups based on age, sex, ethnicity, religion, disability, sexual orientation, marital status, and pregnancy must be avoided.
